A Message from Aura International Group, Inc.

We are proud to announce that we have moved into our new facility in Henderson, Nevada. In late March, we began searching for a new facility that would allow us to expand our customer service department to support our increasing business. We also started looking for people to build a strong team of employees that will help with our customer service and develop better communications.

Our facility and square footage is perfect for our immediate needs. This facility is new and large enough to accommodate our new growth to aid in delivering orders more efficiently, and develop a better system to help our company grow even bigger in the future.

Our first priority is to build a strong customer

service department that will support our fulfillment service company and help in developing sales brochures for your customers, and be ready to assist you in answering your questions immediately. Our continued growth depends on good communication and great customer service. We believe we have accomplished that goal.

At the same time we plan to keep developing new and improved therapy products to insure complete satisfaction from our customers. Our research department has expanded as well and will continue exploring ways on how energy can benefit the human body.

Thank you for your continued support in our growth, and thank you for being our customer.

Group, Inc*

What is human energy and how does it work?

by RICK C. HUNT, PhD

A gifted scientist named Fritz Albert Popp, PhD discovered and found a way to measure energetic activity which occurs between each and every cell in the human body. It is not only a network of energy, but a network of "Pure Communication". These Biophotons are what he calls bursts of energy that travel through your brain and around your body at the speed of light. The Biophotons carry the pre-cursor messaging that accomplishes the successful function of each organ in your body.

This is the "software" that controls everything. We all work with or receive benefits from networks of computers every day. We all have a basic understanding of how that all comes together. Let's take a moment to consider our

What is human energy and how does it work? (continued from page 1)

body as a network of systems; we call them “organs” and a central computer that we will call the brain. You actually have the most complex information system in the world, inside your own body.

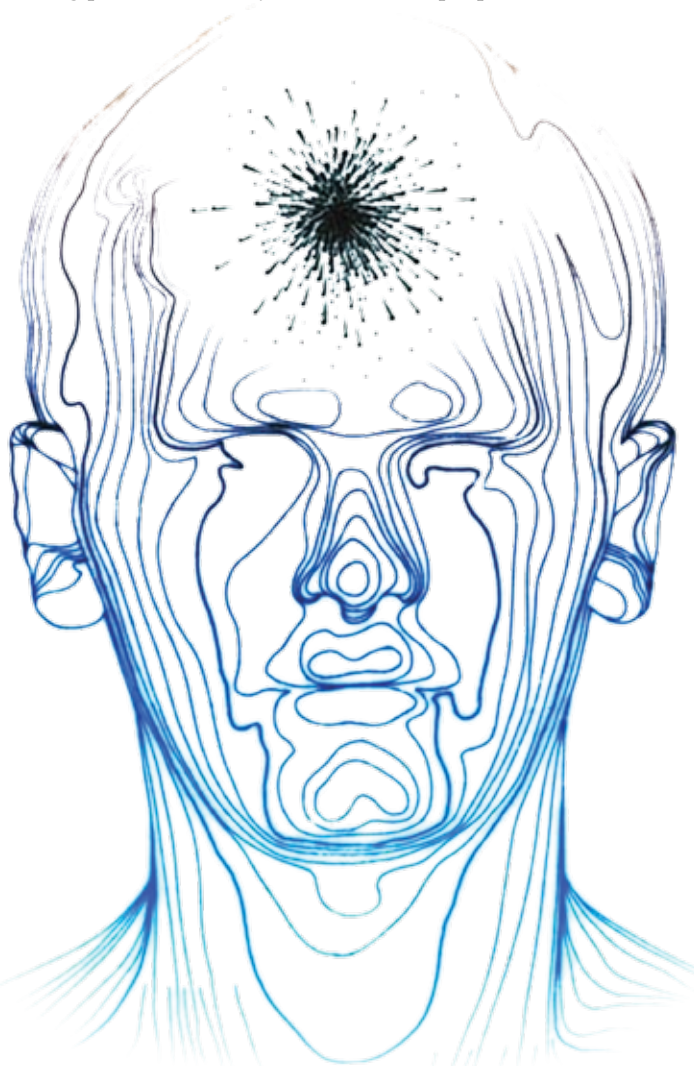

Most information systems are divided into two halves. Hardware, which we call the “the body” and software, which we call “your energy”. Yes, energy not brain. The energy actually contains the information. It may begin in the brain, but the energy is the extension of the brain. The energy controls every single function of your body as a pre-cursor message.

How can we use this new information for better health?

Before we can answer that important question, let me explain what I have observed for the past 17 years while working with doctors

and thousands of their patients. Let me begin with the immune system, during the testing procedures in my lab,

I found infectious bacteria, viruses, fungi even large worms living and thriving inside people’s bodies. The

question and curiosity here is; why doesn’t the immune system become active and eliminate these creatures and restore proper health? Unfortunately, we don’t know the answer to that question, but we do have a solution to this problem.

The immune system doesn’t recognize the parasite, so it allows it to thieve inside your body. Eventually it creates organ dysfunction and in a few years it will probably become known as a disease. Why does this happen? The answer is we have a corrupted software file in our immune system. The good news is we now have the technology to naturally “reboot” your immune system and provide it with the correct information.

Upon Further Research

1 It has been discovered that using the Colds/Bacteria Patch and the Flu Patch together negate each other. Use only one of these at a time.

2 Also, wearing the HGH-4 Patch with another patch helps improve the healing time.

Example: After using a Candida patch and eliminating Candida, the ravages of the Candida in the body will be helped by using the HGH-4 patch with it.

STORIES TO SHARE

I am a Registered Nurse and CHTP (Certified Healing Touch Practitioner — Biofield Therapy) and would like to order your products for my personal use and for my clients. I have tried the Sleep Patch for my husband who has had a sleeping problem

for most of his life (he is 79 y.o.) and they have made an incredible difference — not only is he sleeping better (only waking up once or twice instead of three or four times) but his whole energetic system has shifted — he is less tense and lighter in “spirit” which

is making a difference in his outlook and approach to his daily challenges.

Thank you. I am anxious to share them with everyone!

Hypnotherapist)*

The Children's Mental Focus Patch for Autism, ADD and ADHD

We feel that we have taken a giant step in discovering a cause of Autism and we already have the therapy and solution for that cause. Our problem is that this virus is not passive; it is a very active virus, which can cause extensive brain tissue damage. The most difficult problem we face is creating a comprehensive master healing program for these children. We have a good start, but it may take another five years to coordinate and complete this important therapy program.

The Children's Mental Focus Foundation has developed a unique method

of therapy for children and adults to balance the body energetically helping to cope with their health challenge by creating a single "energetic patch" that will deliver information to the child's or adult's body.

This energy is in the form of communication that is programmed into the "energetic patch" which the person wears. This kind of

therapy uses no drugs and is chemical free, and can be used in combination with

any regular treatment. For more information on this discovery visit our web site (*see bottom of page*).

From our Sales representative Dan Glazer in the Greater Atlanta Area

Since working directly for Aura International, Group, Inc. as a Representative I have had my eyes opened with what I have seen and heard. Frequencies...with their energetic healing abilities do to help support and enhance the practitioner's therapies. I have been calling on Doctors and therapists for a little over a year now promoting the Aura Patch System in the Atlanta area, and I've had the physicians actually call me in amazement over what the Aura Patches have done for their patients.

The biggest feedback I get from the practitioners

using the Aura Patches on their patients is how the patches synchronize with the main therapies they all ready use. That is exactly what we at Aura want to hear. The Aura Patches are created to enhance and support the main therapies that each practitioner uses for their patients.

I had a doctor tell me how his patients love the Aura patches, but they love him even more. If the Aura Patches make your patients love you more as their practitioner, then we are doing our job.

The wonderful thing about the Aura Patches, as well, is how they support so many different types of practitioners. I have set up Medical doctors, Homeopathic Doctors, Acupuncturist, Chiropractors and more. The Aura Patches fit into each different practitioner practice like a custom glove.

I've had doctors tell me that it's like the patient is taking his therapy home with them when they wear the patches. The Aura Patches seem to connect the patient to the practitioners practice even more.

Being an Aura Rep-

resentative in Atlanta has been and continues to be one of the most rewarding experiences of my life. I want each and every doctor and therapist in the Atlanta Georgia Area to know they are welcome to call me day or night or on the weekends. My job is to be here for you and your patients.

Practitioners will even call me while the patient is in the room with them to find out which combination of patches work best with each condition. The more calls I get the happier it makes me, so please do not be shy with the calls that is what I'm here for. I am so thankful that so many of you in Atlanta and the outlying cities of Georgia have allowed Aura International to be of service to you and your patients.

I will always be available to the Atlanta and Georgia area practitioners to help to support and enhance their practice with the Aura Patch System.

Research and Development is our Future!

EMR Technologies, Ltd. is the research and development arm of our company. Our facility has been recently certified by the State of Nevada as an environmental testing company. We are dedicated to our industry where we conduct bio-resonance applications and manufacture several different products utilizing proprietary bio-resonance and frequency technology.

EMR has developed a number of applications that have been turned into commercial products that are used in the nutritional supplement industry, health and wellness, as well as microchips to reduce harmful radiation in cell phones, and reducing toxin emissions in automobiles.

Current Products

Aura Patch System™

aura

The Aura Patch is a small metalized energy patch that attaches to the body and presents a field of supportive and restorative energy back into the body's energetic field. The AURA patches are an energy delivery system. They provide specific energy patterns that are found in people with abundant good health. By restoring these energy patterns, we have observed a positive change in people's health. The patches are programmed with completely natural frequencies with no negative side-effects. There is no chemistry that passes through the skin. This is the same energy that is found inside the healthiest people on earth.

Cell Phone Battery Booster™

The Cell Phone Disk is a revolutionary discovery that will defend against electro-pollution from cell phones and mobile phones, and also enhances the battery energy for longer use between charges. The proprietary process enables the cell phone chip to emit neutralizing frequencies that correspond and eliminate harmful electromagnetic frequencies (EMF) and electromagnetic radiation (EMR) as well as improving battery life. The Phone chip prevents the body's energies from disturbances through environmental influences such as harmful EMF electromagnetic fields.

The Crystal Blue Air Chip™

The CBAC has been tested in Korea, Mexico and United States for gas efficiencies and improved toxic emissions. The chip uses a magnetic-like energy field, which raises the quantum coherent level of the energetic structure of petroleum. This conditioning increases the energetic structure of the fuel and neutralizes the toxic elements while octane and oxygen energetics are increased prior to combustion taking place. The result is a dramatic reduction in automobile smog emissions and an increase in performance, (both torque and horsepower).

Quality Assurance Seal™

The QA seals are used on nutritional supplements to enhance the products potential, and for the protection against the degradation of the ingredients. They ensure that the ingredients will be kept at their highest level of energy. By attaching a single seal to the bottom or side of the container, the ingredients within will receive specific energetic frequencies from the seals; thus keeping the ingredients fresher, thereby supporting the claims and the reputation of the product.

Therma-Sound Seal™ IF-1000 Window Insulation Disk

The Window Insulation and Noise Reduction seal is made to improve insulation and noise reduction properties by a factor of 57%. The seal has been electromagnetically charged with specific frequencies that bond the gases inside the windows. The seal improves the density of the insulation on all windows and glass doors that contain carbon dioxide (CO2), sulfur hexafluoride (SF6), (Kr), and argon-krypton mixtures.

To place orders online, go to: www.aurapatches.com. EMR Technologies, LTD. is headquartered in Henderson, Nevada with sales offices in Orange County, California, Atlanta, Georgia and Mexico City, Mexico.
